Only such rich suds can *last* until dirt is loosened

Chipso can do the really hard part of washing for you, because it gives a very special kind of suds. Not sisy, pretty suds that "die" the moment you put clothes or dishes in them. . . . No! Chipso suds are rich suds that last until the task is done. (As you have probably discovered—the richer your soap is, the longer the suds last, and the quicker and easier the dirt comes out.)

Quick, of course—but they last

Though Chipso's rich suds follow up into a foam of suds when you run hot water over them, the suds stay up and every garment is clean.

If you soak clothes for 20 minutes in these rich suds, they will loosen all the dirt. If you prefer to soak overnight, you can "boost" Chipso suds up again with more hot water—there's no need to make a fresh suds. Then you need only agitate the suds through the clothes a few times, rubbing lightly on the extra soiled spots. Rich lasting suds do make an easier washing!

Chipso is a thrifty worker

If you have tried a large box of Chipso, you know what "Chipso value" means—about 5 average washings from one box, perhaps more if your water is soft, or a month of dishwashings.

Rich lasting suds wash dirt free. A 20-minute soaking in rich, lasting Chipso suds loosens even grubby dirt quickly without heating clothes or fabrics. (You can soak overnight, if you prefer.)

Soaks clothes clean—
Dishes 1/3 less time

Chipso—quick suds
that last

These quick suds "stand up" in the machine

Chipso is an efficient and convenient soap to use in the washing machine too because its rich, lasting suds last throughout the run. They won't "kill" clothes, shrivel them, or put on your clothes as the suds of some soaps do.

Many women have found that it helps to give their clothes a 20-minute Chipso soaking cycle in the machine before they start the wash. By this method, even the grubby dirt loosens thoroughly before the machine starts. Then, at half the usual time, and with much less power, the clothes become thoroughly clean and sparkling.

Quicker dishwashing with rich suds

Dishwashing is a pleasure for Chipso soap because the rich suds last and make the grease free.

While you dry your glass and silver, these lasting suds will soak the food stains from your china. While you dry the china, the extra rich suds the grease from your pots and pans. Dishwashing this way saves you time, saves your soap, and preserves your health by keeping them out of hot water.

Chipso is made right here in Canada, and one of thousands of Dominion women have already learned how helpful and economical it is for all household cleaning. Your grocer sells it. Prices in Canada, Ltd., Toronto, Canada.

Almost any style can look like a Distinction.

But the Distinction is a Distinction.

But the Distinction is only one Distinction.

It is the style, the design, the finish, the material, the workmanship.

VEEDOL Performance — has been Tested and Proven — In the air and on land

It is significant that, out of all the oils available, such famous aviators as Commander Byrd, Clarence Chamberlin, Art Goebel, Martin Jensen, and many others, chose Veedol. These endorers of Veedol back their judgment with their very lives—Veedol has stood the test of motor oils' greatest proving ground—the air!

Your car, with its modern high-speed, high compression motor, has the same need of Veedol, for, though twenty horsepower may not mean disaster to you as it might to them—sooner or later it will result in a costly repair.

For many years on the road, and now in the air, Veedol has proved itself capable of beating any possible combination of speed, weather, heat or friction. Drive in where you see the orange and black Veedol sign displayed and have your car checked with this heavier-bodied, super-hot running motor oil.

Describing some novel and useful methods of cooking and serving a favorite meat dish

Broiled and Pan-Broiled Chops

CHOPS and roasts remain on the whole, the most popular meats served in this country and most household tables. But there are also chops which are served in the pan, usually seasoned with a little salt and pepper.
